- Why us

About Us

- SST group is the leading technical service organization offering Integrated Services, innovative and customized solution for Telecom Sector, Electrical and VST servicess. We are an ISO 9001 organization.
- • We are specialist in the operations of Optical Fiber Cable Implementation, OFC Blowing work, HDD Work, Operation & Maintenance (O&M) work of OFC, NLD & MAN & OFC Splicing Services and government infra work.
- Telecom infra civil ,Erection , electrical work for VIL in J&K ,AP and MAH circle .
- More than 100 sites of GBT , RTT , RTP , UBR , 4th Sector , Wi - Fi installation has been done till now .
- More than 500 sites of Tower infra ,BTS, MW dismantle has been completed successfully in circle MP , Goa , MH ,AP .
- Considering the growing global demand of high capacity and fast communications, we planned to develop & design of underground fiber optic cable infrastructure. And as of now, we have built many underground underground OFC network network along with multiple multiple numbers numbers of HDPE duct through through HDD method.
- As a leading Infrastructure Service provider, we have championed ourselves in infrastructure designing, constructing & maintaining of OFC Network. Our success is based on our ability to respond quickly and creatively to our customer's information systems challenges.
- We have well developed and a highly motivated skilled work force of more than 50 individuals, who shares a deep commitment and knowledge to the company's mission and its customer intimate nature.
- Over the years the success and growth of SST has been recognized by several customers in various industrial segments like Wind , Solar, Cement, Power generation , Steel, Process Industries and oil & Gas.
- The steady growth in the electrical sector reinforces SST to further expand the business segment in offering complete solutions for the global renewable energy and electrical market .

- Soon Entering into UAE Telecom Market as Key service player ,TI and RF activates ,KPI Analysis ,Report making
- We have experience and quality team for service related field

Mission and Vision
VISION
To be an established global player and sustainable market leader in Renewable Energy and Electrical Sector.
MISSION
We Aim to be an
• Integrated Technical Service Provider
• Innovative & Customized Solution provider
• Independent Player by developing new Synergies

SST MILESTONE

2022

SS Telecommunication

Established for Fiber . Supply and Telecom Supply and Services and Electrical Sector

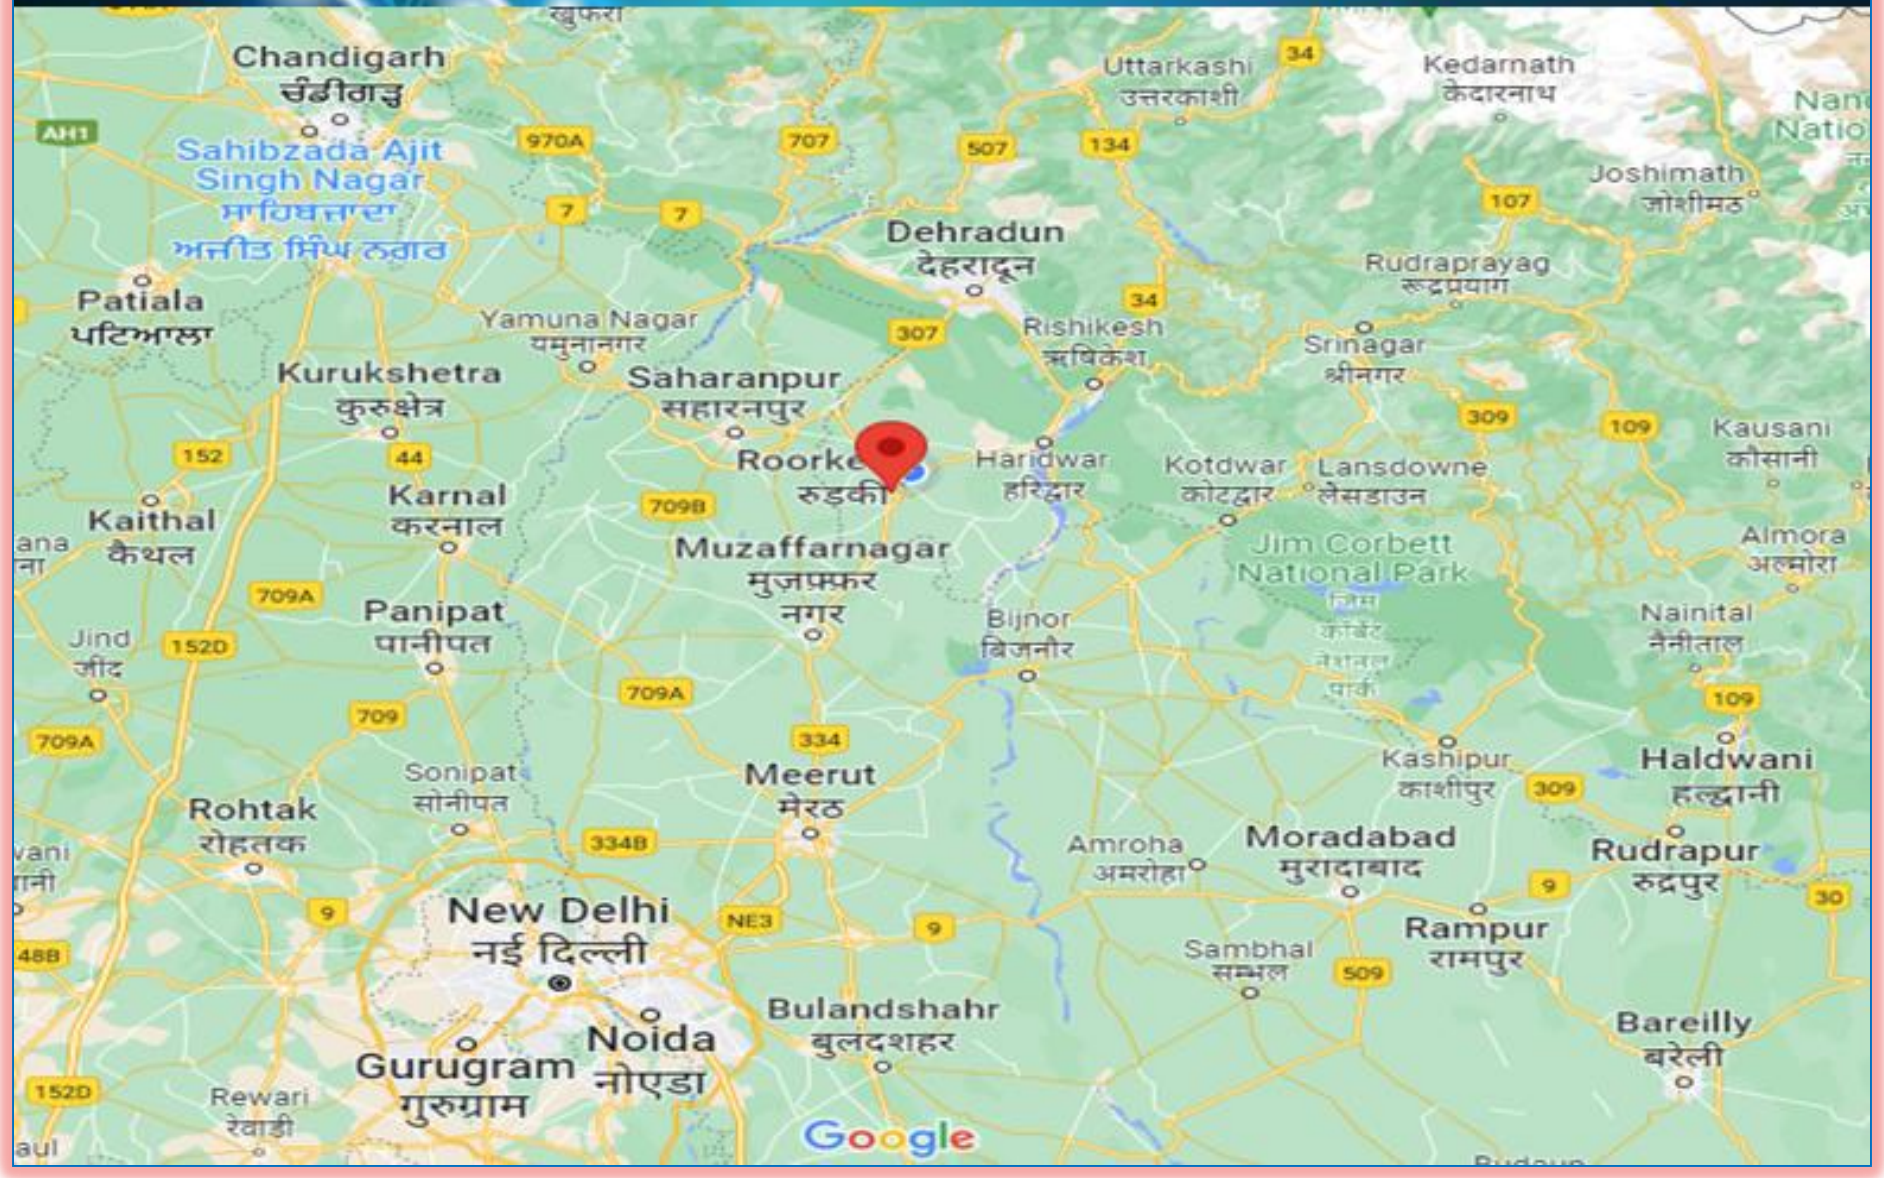

Quality

- We appoint Skilled Employees to ensure quality services.
- We use latest technology and tools to maintain quality.

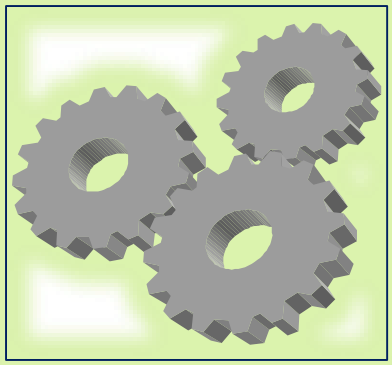

Safety

- We provide all the safety tool and equipment to our employees.
- We Provide Safety training to our employees time to time.

SCOPE OF SERVICES

- Excavation of trench, laying of duct and backfilling of trench (Methodology: Mechanical Ways-Excavators & HDD,Manually through Labour force)
- Maintenance of OPTICAL FIBER CABLE
- Ground Based Tower foundation and tower errection.Roof Top based tower errection.GBT ,GBM , RTT , RTP Site Construction
- BTS ,UBR ,Wi-Fi ,4th Sector ,Men month Activates , Civil Sites constriction with material ,DT ,SCFT ,Benchmarking ,Cluster Drive with tools /Without Tools ,with Transportation /Without Transportation .Dismantling of complete Tower with equipment including transportation to warehouse
- RF Survey ,EMF Survey ,ERI Survey with complete report making
- Drive Test ,Cluster Drive , Benchmarking ,Trai Drive ,MRO Testing
- BSC , MSC ,RACK dismantling with packaging including Transport to Ware House ,

Engineering Team Infrastructure:

- We have a team of number of technical qualified and experienced personnel having expertise in their related fields.
  - Details of staff : -

Civil engineers: 08
Electrical engineers: 14
Civil diploma holder: 7
Splicers: 05
Supervisors: 10
Other Skilled manpower: 50
Manager : 4
Project Manager :3
Drive Test Engineer & TI Engineer :20
Tower Infra Team : 4
Report Makers : 12
Optimization Engineer : 15
KPI & RNO : 7
CAB SUV & Commercial : 15
TEMS /AZQ/NEMO/TEMS Discovery tools : 5 per circle

Infrastructure:

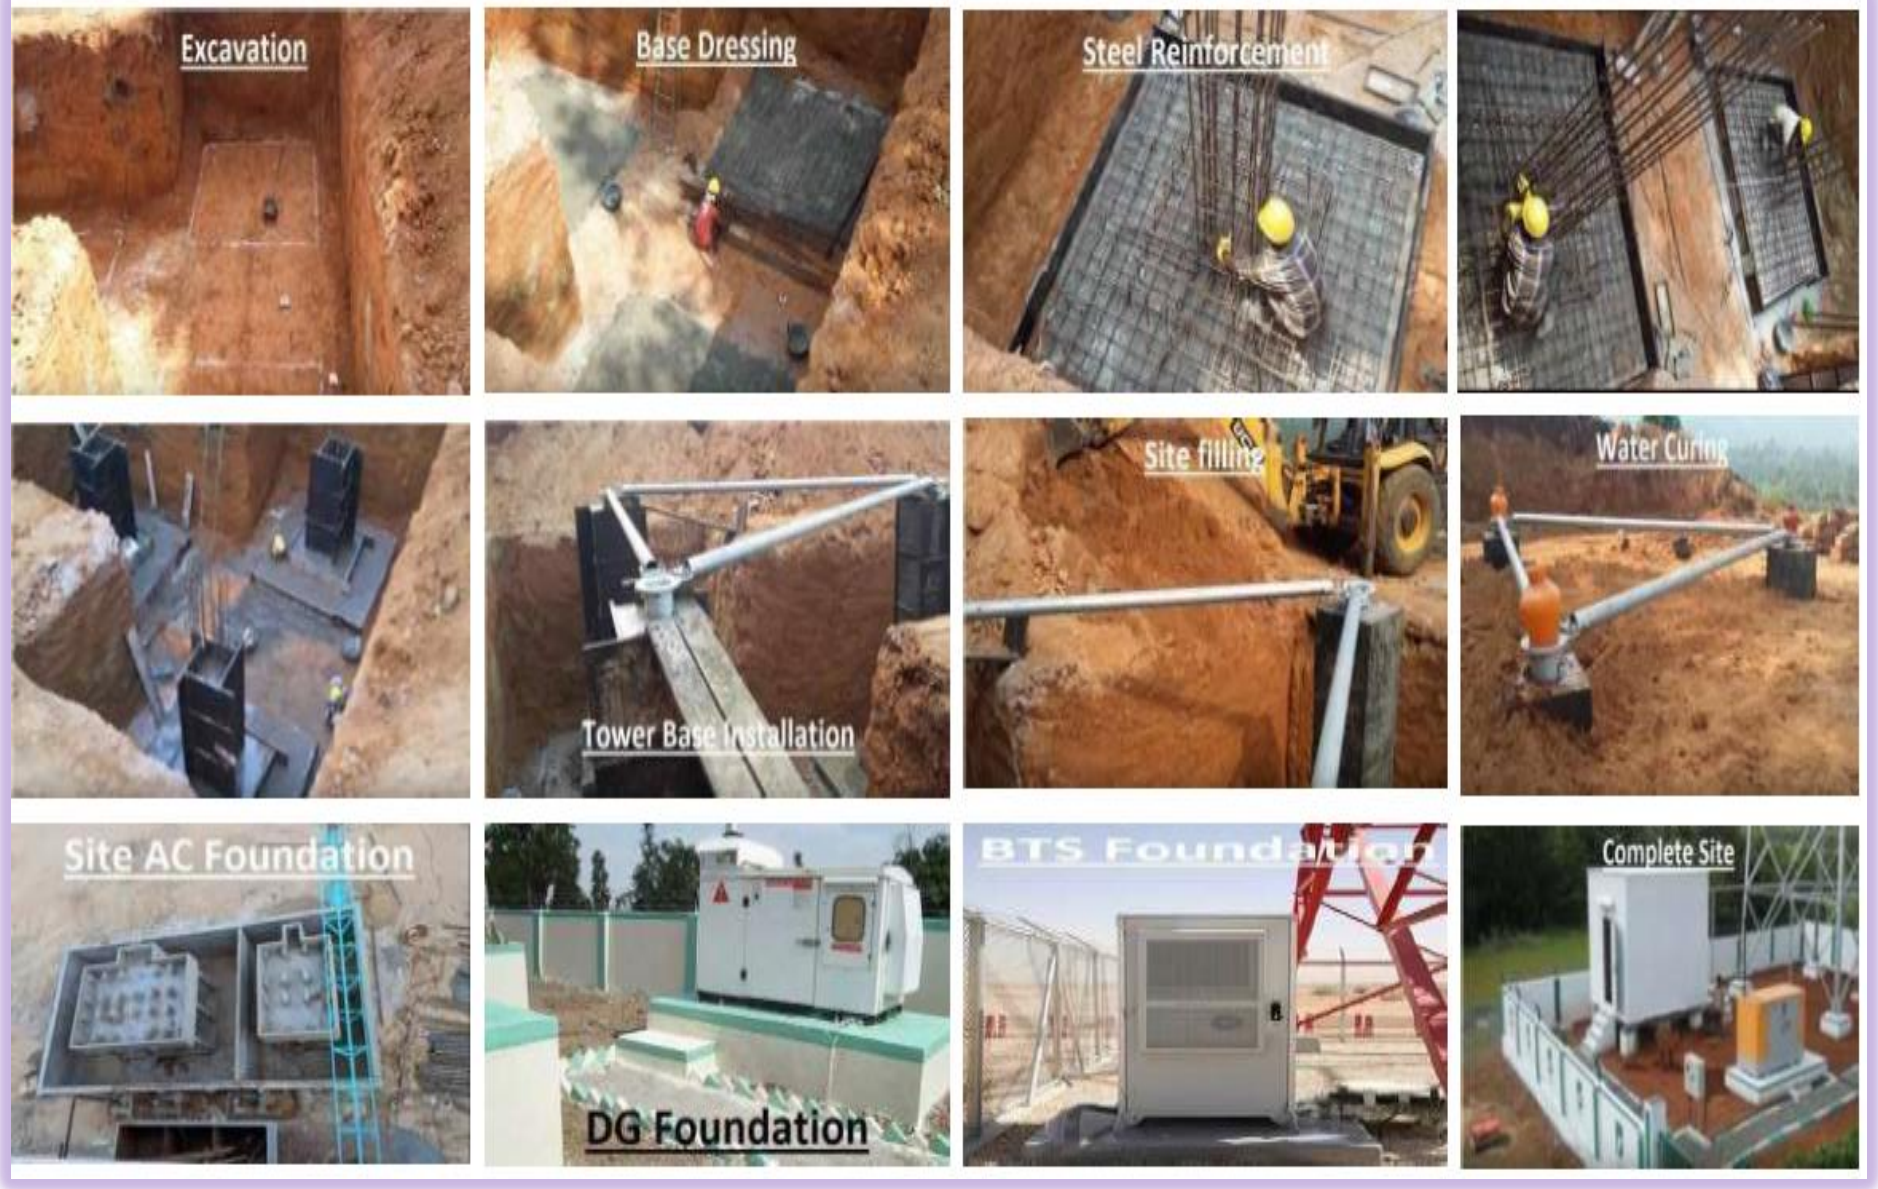

S.No.	Particulars
1	HDD Machine
2	JCB
3	Poklen 130
4	Poklen 210
5	Breaker
6	Tractor & Tanker
7	Blowing Machine
8	Splicing Machine
9	Pentha Road
10	Tralla
11	Loader

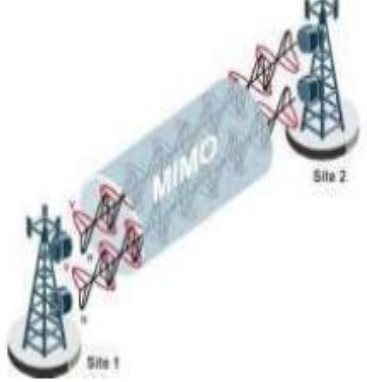

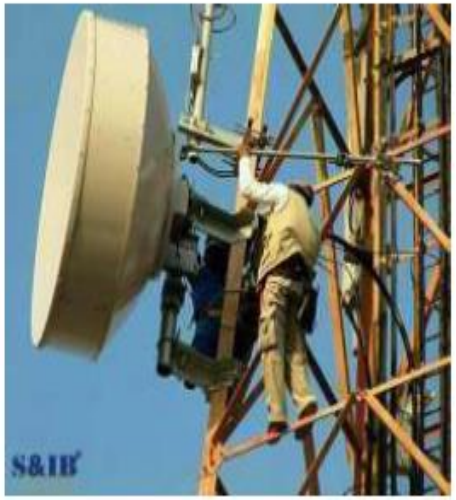

Tower Infra Activities

Active Services

- 2G/3G/4G/5G BTS Installation
- GSM Swapping
- MW Link
- MIMO MW Link
- BTS Expansion/Swap/Degradation
- MW Swap
- P2P/ P2MP
- FTTH/OFC
- Wi-Fi
- Wimax
- IBS
- LAN/MAN/WAN Networking

Field Activities

De-installation

- Site Survey
- De-installation of Network
- Packaging of Equipment
- Transport to WH
- Site Submission
- Report to Customer

EHS AT SITE
